

Nixon Williams are able to assist you with the provision of insurance cover for your business.

Whilst you can probably buy insurance for all types of risks, there are three main areas that you are likely to need cover for.

Professional Indemnity Insurance

As with accountants and solicitors, professional contractors and freelancers will provide advice and services which will be relied upon by their clients.

Even where care and skill is exercised, there is still the potential for you to make an error that causes financial loss to a client. Happily, such cases are rare but when they do occur they can be costly. Professional Indemnity Insurance can provide you with peace of mind for quite a modest fee.

Policies can be purchased from our Insurance Shop and start from just £147. To visit our shop please go to: www.nixonwilliams.qdosconsulting.com

Employer's Liability Insurance

Employer's Liability Insurance covers you for any liability you may have for injury or death to your employees.

Whilst this cover is compulsory for all businesses, limited companies are exempt where you are the only employee and you own at least 50% of the shares.

Although you may benefit from the above exemption, these policies are usually provided as part of a package with Public Liability Insurance.

Public Liability Insurance

Public Liability Insurance will cover you for any liability or death to third parties and damage to third parties property as a result of negligence by you or your employees.

Combined Public Liability Insurance and Employer Liability Insurance policies can be purchased from our Insurance Shop. Prices start from just £96. Our online shop can be found by visiting: www.nixonwilliams.qdosconsulting.com

Insurance Shop

In addition to the above products, our Insurance Shop can supply many other types of insurance such as:

- IT Contractor Insurance
- Locum Insurance
- Contractor Insurance
- Interim Manager Insurance
- Freelancer Insurance
